# Suggest also install PyCharm - Community IDE

The screenshot shows the JetBrains website's download page for PyCharm, specifically for Windows. The browser's address bar shows the URL: <https://www.jetbrains.com/pycharm/download/#section=windows>. The page features the JetBrains logo and navigation links: Tools, Solutions, Languages, Company, Support, and Store. The main heading is "PyCharm", with sub-links: Coming in 2020.3, What's New, Features, Learn, and Buy. The "Download PyCharm" section has tabs for Windows (selected), Mac, and Linux. Under the "Professional" tab, it describes the IDE for scientific and web Python development with HTML, JS, and SQL support, and provides a blue "Download" button with a "Free trial" link. Under the "Community" tab, it describes the IDE for pure Python development, and provides a dark grey "Download" button with a "Free, open-source" link. On the left, there is a PyCharm logo (a green and yellow hexagon with a black square containing "PC") and version information: Version: 2020.2.3, Build: 202.7660.27, 7 October 2020. Below this are links for "System requirements", "Installation Instructions", and "Other versions".
